

Engineering Developing Trust: APPLICATIONS ARE NOW OPEN for our unique Virtual Insight into University course

We would like to share an exciting opportunity for students in **Years 11–13 (S5–S6)**. The [Engineering Development Trust](#) has now opened applications for their [2026 Summer Virtual Into University Course](#).

This flexible online course (approximately 30 hours of study over the summer) gives students the chance to explore STEM subjects at leading universities, including information about degree apprenticeships and future STEM careers.

Through the programme, students will have access to:

- STEM projects and activities from leading UK universities and global STEM companies
- First-year undergraduate lectures
- Live interactive sessions with academics, admissions tutors, employers, and current university students
- Insights into university life and STEM career pathways

Students who complete the course will receive the [Silver Industrial Cadets Award](#), a nationally recognised award inspired by its patron, His Majesty King Charles III, which can support future university and career applications.

Parent Webinar

Next month there will also be a webinar for parents and guardians, where you can learn about upcoming opportunities available for your children.

Discover EDT exclusively for Parents & Guardians

 **Thursday 16th April**

 **4:00–5:00pm**

Parents and guardians can book their place here:

Registration Link: [Click here](#)

If you have any questions in the meantime, please feel free to contact the EDT team at studentrecruitment@etrust.org.uk.

Further information can also be found in the attached course flyer.

Best of luck,

Margarita Harris
