1. Introduction

1.1. The 16-19 Bursary comprises of two elements: the **Discretionary Bursary** and the **Statutory Bursary**.

1.2. The allocation of funds for the Discretionary Bursary from the Educational Funding Agency varies from year to year. As such, awards could vary depending, individual circumstances and established need, on the number of claimants and the total funds received by the College.

1.3. The Statutory Bursary is a fixed maximum amount of £1,200 that must be applied for by a student.

2. Administration

2.1. Discretionary funds are allocated to the College based on census returns and local population information. The nature of funding being lagged may lead to allocated funds not being commensurate with the number of claimants. In order to ensure that students in need are able to claim, and subsequently receive adequate support, the College will ensure that a contingency fund is maintained in order to continue to support claimants the following year irrespective of allocation.

3. Establishing Eligibility

3.1. It must be established, either by the College or via student application, that there is a clear financial need.

3.1.1. The eligibility criteria for the Statutory Bursary are set out by the 16-19 Bursary Fund Guidance - as below:

3.1.2.1. The family is in receipt of Universal Credit.

4.1. Appropriate evidence of the student meeting one or more of the eligibility criteria for both the Statutory and Discretionary Bursary must be supplied to the College and copies retained for our records.

4.1.1. For Discretionary Bursaries appropriate evidence is likely to include government documentation for Universal Benefit claimants, those in receipt of another form of legacy benefit, or those registered disabled. For those with medical conditions that affect either the individual or a family member, a doctor's note or similar would be acceptable. For more complex circumstances it may be necessary for a meeting to take place between students and their parents or guardians, and College staff. Wherever possible, written evidence must be provided.

4.1.2. For Statutory Bursaries, the evidence must be provided with an application form, and this evidence will need to be from an official source. In the case of those in care, or care leavers who join from another school, academy or learning provider, this evidence will not automatically be provided by the previous institution and may require the student or their guardian to authorise that institution to disclose information to the College.

4.1.3. Copies of evidence provided are kept in accordance with the College Data Protection policy and record keeping practices as required by the Department for Education.

4.1.4. Applications must still be completed for a student to receive reimbursement for their educational expenses.

If Bursary funds are being used for purposes other than those set out in 5.4, funds may be recalled, or subsequent payments withheld.
